Quality engineer

BHARAT FORGE PVT.LTD

2021-2022

PROJECT

FINANCE -ANALYSIS ON BANK OF CUSTOMERS

- the focus of the project on analyzing bank loan data identifying trends and customer behavior ,and providing actionable insights to support decision -making processes.it also emphasizes the creation of interactive dashboards ,the presentation of findings to stakeholders,and the overall support for data -driven decision making.
- imported datasets into various platforms ,including excel,My SQL,tablue and power BI,for analysis and visualization .
- Utilized power pivot in excel to import and manage datasets ,establishing realationship between required datasets.
- performe extract ,transform ,load(ETL) processes in My SQL,through command line to ensure data integration .
- Employed data blending and joins in tablue to merge relevant columns from different datasets.
- leveraged the merge queries feature in power BI to combine and consolidate data from multiple sources.
- Built meaningful visualization and attractive dashboards using Excel,Tablue ,and Power BI.
